

THE INTERIOR'S BEST SELECTION OF MEDICAL SUPPLIES

Helping You Live a Full  
and Healthy Life

## We Love Our Customers

We at Cooper Medical practice social distancing for the safety of our customers, their families, and our staff.

**Thank you** for checking out our Newsletter! We will be publishing monthly.

Our family-driven business has been dedicated to helping local customers since 1991. As a non-corporate, independent business we get to treat you like family because that's how we want to serve you.

If you need medical supplies that are both unusual and wonderful, we can get them for you. We are great listeners who go the extra mile for you. We make time to understand your situation and find solutions.

We know our stuff, but are also happy to do research and step outside the box. Our job is to help you find the freedom to live – it's what matters most to us.

Thank you kindly for your business!

## Product Highlights

**Cambridge Masks™** filtration system incorporates particulate filtering layers and military grade carbon. The Cambridge Mask PRO meets the N99 (one step up from N95) standard and is built to filter out 99.6% of particles, bacteria & viruses in the air. The PRO mask uses a unique triple filter system. The first layer of the filter system catches larger pollution particles such as dust and PM10.

The PRO Mask can be used for up to 340 hours depending on the level of pollution it is exposed to. For the average customer this is around 3-6 months of wear.

The carbon filter is treated with silver to ensure 99% of harmful pathogens are removed and killed. **Contact us at <https://coopermedical.ca/shop/>** and/or stop by our store...

**These masks are incredible, stylish and most importantly N99 safe!**

Orthex is a Canadian company specializing in sleep posture. Orthex design aesthetic and effective products that help our customers to relax and sleep soundly. Orthex posture cushions and pillows help alleviate many problems originating from sleep position.

# Community

## Feature

**Paul Meise**, business owner of **Cooper Medical Supplies** proudly supports the People In Motion organization. People In Motion is a local, (Kelowna, BC) volunteer driven, registered charitable organization which assists and encourages people with physical and sensory disabilities. They also assist seniors with special needs and their families to participate in and contribute to their communities as much as they desire.

Check out this amazing organization and awesome **video** that spotlights three individuals who use People in Motion's adaptive equipment, giving them the freedom to explore outdoor spaces and a variety of activities with family and friends.
